What types of skill games does AviaGames offer?

AviaGames offers a variety of skill-based mobile games in which outcomes are determined by player performance.

1. **Solitaire Clash** is skill-based, offering competitive head-to-head gameplay where the outcome depends on each player's strategy, speed, and accuracy rather than chance.
2. Bingo-style / number-matching games

Example: Bingo Tour and Bingo Clash — classic bingo mechanics enhanced with time pressure, power-ups, and skill matching.

3. Action / precision games (Sports/Pool etc.)

Example: 8 Ball Strike — a pool game where shot placement and timing matter; quick rounds, skill-based.

4. Puzzle / casual games

The platform also includes puzzle, board, tile-matching, and other casual skill games. For example: tile blitz, match-n-flip, dominoes.
Key features of Avia's games

- Over 15 unique titles across these categories.

- Fair matchmaking: players are matched with others at similar skill levels, and identical start-conditions are used to make skill.
- Quick sessions designed for casual mobile play (between errands, short breaks) and easy to pick up.
